

International Collaboration for Neutron Detector Development Joint Working Group Meeting

Disneyland Hotel “Safari Room”, Anaheim, USA, October 30th, 2012

Preliminary Agenda

Time	Speaker	Title	Chair
14:15	K. Zeitelhack	Welcome	
14:20	N. J. Rhodes	WLS Fibre detector status and future plans at ISIS	Bruno
14:40	R. Riedel	Scintillator detectors at the SNS	
15:00	T. Nakamura	Large area neutron detectors based on ZnS/B ₂ O ₃ scintillator using a wavelength-shifting fibre readout	
15:20	R. Engels	Status WSF Neutron Detector Prototype from FZJ	
15:40	N. Maliszewskyj	COMAND: Chromatically Optimized Multiple Analyzer Neutron Detector	
16:00		Coffee Break	
16:30	T. Wilpert	BF ₃ and Boron-10 based detector development at HZB	Nigel
16:50	I. Stefanescu	Solid Boron-10 converter based detector development at FRM II	
17:10	B. Guerard	CRISP collaboration for the development of the Solid Boron-10 Multigrid detector	
17:30	A. Khaplanov K. Kanaki	¹⁰ B ₄ C films and detailed characterization of Multi-Grid detector News from ESS	
17:50		Discussion	
19:00		End
